

# Junior Digital Image Technician

Based in our studios in Bath.

**Salary: Dependent on experience**

*This is an exciting period of growth for The Table Creative and we are seeking to grow our visualisation team further. Offering the right candidate an amazing opportunity to work alongside outstanding CGI artists, designers and stylists to produce breathtaking images for a broad and varied audience and client base across our Provision and Envision departments.*

This role would suit a graduate or undergraduate who is passionate about digital image production and would like to pursue a career in digital imaging or CGI visualisation and animation. Training will be provided, but an artistic eye, a humility to learn and a desire to work in a professional environment on creative content are necessary.

The Junior Digital Imaging Technician will work directly alongside our CGI and post production artists and interior designers to produce and output high-quality atmospheric images and illustrations for our Envision (CGI for built environment) and Provision (CGI for product) departments.

Reporting to the Managing Director and senior artists, your role will see you assist in the production, digital file management, and outputting of photorealistic CGI imagery.

THE  
**table**   
CREATIVE

# Key skills

---

## TECHNICAL:

- Experience using photoshop to create, manipulate and enhance imagery is essential.
- Experience using 3D StudioMax, and Corona/Vray would be advantageous.
- An ability to understand and interpret architectural drawings, 3D CAD models, storyboards and moodboards.
- Familiarity with the breadth of Adobe design packages, including Photoshop, Illustrator and Indesign, as well as video software such as After Effects and/or Premiere.
- A passion and understanding of photography, colour theory, illustration and/or fine art.
- Meticulous attention to detail, both when working on images and managing file structures and complex methodologies.

## COMMUNICATION:

- Outstanding verbal skills which enable you to describe your own work clearly and effectively both in-house and to external clients and stakeholders.
- Comfortable using a variety of means to communicate with others, including telephone, email, presentations and video conferencing.
- Able to listen effectively, to understand what is required, asking questions where relevant.
- Diligent at recording information and keeping track of information and requests.
- Responding fully, accurately and in a timely fashion to tasks appointed.
- Make simple but effective presentations in-house as required.

# Responsibilities

---

You will be primarily assisting in the production and output of photorealistic CGI with tasks including but not limited to:

- Importing and preparing 3D assets for inclusion within visualisations.
- Retouching photography for use in photomontage visualisations.
- Outputting large quantities of images from layered PSD files with careful attention to naming conventions and asset tracking spreadsheets.
- Programming and running Photoshop batch actions across numerous image outputs.
- Preparing PSD files with raw render layers, ready for the post-production team.
- Creating carefully colour corrected scans and textures for use on product models.
- 3D scanning of assets to be converted into photorealistic assets.
- File management and cataloguing of our extensive 3D asset library.
- Assisting in modelling scene components and assets in 3D StudioMax.
- Manipulating existing 3D scenes and importing props and styling assets under the instruction of our in house stylists.
- Submitting and tracking renders through the render farm.
- Managing digital file storage and following accurate record keeping.

## People skills

---

- Proactive, confident and engaged.
- Communicating, upholding and representing our values of Integrity, Creativity, Hospitality and Trust at all times to others in-house and externally.
- Responding quickly, effectively and with humility to direction from senior staff and colleagues.
- Engaging in constructive interaction with colleagues.
- Listening and asking open questions.
- Working as an influential member of a team.

## Personal qualities

---

- Able to undertake a diverse range of tasks, involving different people and different activities, whilst prioritising your own work and achieving fixed deadlines.
- Demonstrate enthusiasm, accuracy, confidence and pride in your work.
- Be reliable, follow-through, complete tasks and be prepared to go the extra mile.
- Be flexible to meet the needs of the company and its work.
- Hungry to learn and grow as a creative in both technical and artistic skill sets.
- Bags of initiative to solve problems and a can-do attitude to challenges.

## Qualifications and experience

---

- This is a Junior/ Lightweight role and would ideally suit a candidate who has completed a degree in a creative discipline. Other undergraduate qualifications and/or relevant A levels will also be considered providing they are supported with an outstanding portfolio of work.
- A portfolio of high quality graphical work produced under deadline.
- Experience of working in a professional office-based environment is preferable but not essential.
- Experience within an architectural practice or design studio would be an advantage but not essential.
- An interest in art and architecture and an understanding of design principles, composition and colour theory is crucial.
- Demonstrate a keen eye for detail, composition and visual narrative
